RESEARCH AND EXPERIMENTS

Observed, interpreted, or still hypothesized

Research claims carry their method, evidence state, failure conditions, limitations, and source revisions.

F# generated | Static first | Printable

Claims change state only when their evidence supports the transition.

RESEARCH AND EXPERIMENTS

Evidence maturity is part of the content

Results are useful only when objective, protocol, measurement, failure, limitation, and source revision stay connected.

OBSERVED

Direct evidence

A measurement, artifact, command result, or source statement that can be inspected.

Verified

INTERPRETED

Evidence-bounded conclusion

A reasoned conclusion that names the observations it relies on and preserves limitations.

Documented contract

HYPOTHESIZED

Testable uncertainty

A claim that still requires an experiment and must not be presented as a finding.

Experimental

PUBLISHED EXPERIMENT

Rehearsal 4: useful core, failed acceptance

The summary retains both the demonstrated live path and the computed failure. It does not convert partial success into acceptance.

Rehearsal 4 — computed FAILED

SOURCE	ELAPSED	P0 REQUIREMENTS
b6947b8f…; deployed candidate ab08b764…	296 of 420 minutes	1 PASS · 9 FAIL · 98 NOT_RUN
CANDIDATE CHECKS	**GATE STATE**	**TOKENS AND COST**
156 PASS · 4 FAIL	G0, G3, G9 PASS · G5, G8 FAIL · five NOT_RUN	Not measured

The live core write path worked, but the mandatory scope was not accepted. D-HIST-WASM remained open: three historical cases replayed individually but failed when loaded together.

Rehearsal 4 claims by evidence state.

State	Claim

State	Claim
Observed	The independent verifier computed FAILED from a revision-bound ledger and content-addressed evidence. A token entered failed Playwright traces; it was rotated, the traces were deleted, and the upload cause was fixed.
Interpreted	The core path was demonstrated, but 107 of 108 P0 requirements lacked passing evidence; this is not competition readiness.
Hypothesized	Local reproducible WASM diagnosis and proving the acceptance schema in the first hour may reduce late CI and evidence work. A comparable run has not yet tested that claim.

MISSING EVIDENCE

Rehearsal 5 cannot yet support comparison

The repository state is reported directly and without speculation.

REHEARSAL 5 · NOT RUN

Revision 52e9a74c… contains only an initial commit and a one-line README. It publishes no objective, run clock, test result, token measurement, acceptance ledger, report, or verdict. Missing evidence is not zero, failure, or success.
